6.0 Morris Bartlett welcomed Russell Gammon to the meeting as the guest speaker for the day. Russell gave an interesting talk on the Guernsey Future. Russell gave some take away points from his presentation. Four quotes: Rather than being the product, the cow is the producer of the product! Ed Grotty. FLIP THE SCRIPT. SPEAK LIFE. CELEBRATE THE SMALL MIRACLES!! Reasons to rejoice: Harrowsmith article re Noble family! 30% increase in registrations over 2017! Second best transfers in most recent decade! Imports to BC and Quebec. More sexed semen. Interest in A2, higher solids milk is growing. Evolution of Eby Manor and other Guernsey processing! Think what has happened in the last ten years. Opportunities to GROW GUERNSEY: Sexed semen. More processing? More imports? More genotyping! More cooperation with US Guernsey! Get Brent Clements up here or online! Blanket social media with photos and videos of clean Guernseys! Strategic planning and goal setting! Innovation and alliances like Eby Manor! #SPEAKLIFE. Russell noted the Guernsey breed is attracting attention, a buzz word and becoming exciting. Communication and messaging are important to both consumers and fellow agriculturists. Are we ready to grow? The goodness of Guernsey milk and the pleasure of drinking it could be promoted. It is what is inside the bottle and the nutrition that goes along with it. Focus on marketing opportunities.

Morris Bartlett thanked Russell Gammon for his presentation with a small token of our appreciation. Janine Eygenraam and Pat Hill from Holstein Canada were introduced and welcomed to the meeting.

President's Message - 2019

How time flies, another year has come and gone and here we are at the Annual meeting.

I would like to welcome everyone here, new breeders and our members who have been involved for years in the Guernsey breed.

If you have any ideas on any topic please speak up and make your comments heard.

I would like to thank EastGen and especially Jessie Weir for doing our administrative duties; she works very hard for our association. Thank you to Russell Gammon for taking on the role of our fieldman, what a great job keeping our Facebook page up to date with all the news on our Golden Girls.

Thanks to the board of directors for all your hard work and making my job easier. With all this help it has been a joy to be your president this last year.

All the best in 2020 with the Golden Girls!!!

Respectfully submitted,
Morris Bartlett

Administration Report 2019

The door on 2019 is closed and the opportunities for 2020 are open and unfolding. In 2019 our Fieldman changed from Rob Forster to Russell Gammon. I would personally like to thank Rob for his time and help as Fieldman. Rob works very hard for the breed and we are fortunate he will continue on as a director on the board. Russell had large shoes to fill but he was up for the challenge. Russell is a joy to work with and has set the social media posts for Guernsey at an all-time high. Russell all your efforts do not go unnoticed and we thank you for all your encouragement, ideas and support. There were a couple of changes to the board as well this past year with Amy Kemp and Kyle Drost completing their terms leaving way for Rob Forster and Paul McLeod to begin their tenure. Thank you to all four of you for your time and support of the Guernsey breed. Thank you to Janine Eygenraam, Linda Markle and Pat Hill from Holstein Canada for their commitment for the betterment of the breed. The three of you have been a huge help as we reviewed the production awards, implemented new awards, imported animals, helped members catch up on registrations and you were always at the other end of the telephone or email when needed. I would once again like to say thank you to our members who continue to financially support the association through milk cheque deductions or donations.

Breed Improvement Committee Report - 2019

Another year has flown by and it's time for another update from your Guernsey Breed Improvement Committee. The committee consists of Ken Forster, Rob Forster, Jim Eby, Alan Spence and myself with assistance from our Fieldman Russell Gammon.

Last year all the breeds made some adjustments to their LPI formulas. All breeds are now putting more emphasis on fat and less on protein and we also increased our weighting on dairy strength. Our new LPI formula has slightly higher reliability than the previous version and we feel it better reflects the needs of the Guernsey breed. There was discussion last year about the LPI of Guernsey bulls being half that of other breeds. When comparing the LPI formulas of all the breeds it is the constant value that is added to each breeds formula that makes the biggest difference. Upon contacting Brian Van Doormaal of Lactanet about the constant value he said it is adjusted every April and is added to maintain the original scale of LPI so LPI values are comparable over time. He also added that the LPI formulas are not designed for across breed comparisons.

The changes we made to our classification scorecard came into effect mid-2019 and after reviewing the latest classification statistics we did not see any big changes or swings. The defects flagged most often by the classifiers last round include advanced tailhead, coarse pelvis weak crops and toes out front.

The committee is always on the lookout for new bulls either to add to our syndicate program or to import semen from other countries. If you have a bull that you would like us to consider please forward the pedigree to Russell or one of the committee members. Also, if there is a cow family you would like to use a bull from talk to a committee member and we will explore any options available to us.

Lastly I just wanted to remind breeders to take advantage of the resources available to you. Jessie and Russell are our breeds greatest assets and are always willing to help but there is a plethora of online tools available as well. Facebook has become an excellent tool for sharing information for the Guernsey breed. Also, the Canadian Guernsey and CDN websites are great for researching pedigrees, proofs and other inquiries.

Respectfully submitted,
Scott Gordon

Annual Fieldman Report 2019

We have launched the boat! Let's keep it headed in an upward direction!!!

What a privilege it has been to serve Guernsey members and the Association and people interested in Guernseys since April 2019!

We have had the following as areas of focus during the year:

Making a large number of social media posts on the CGA Facebook page. The goal here has been to raise the profile of Guernsey cattle, Guernsey products and Guernsey owners to the dairying public at large. We have had good engagement with the most interesting posts.

Really enjoyed the Breeders Cup competition and working with the judge.

The Niagara Picnic afforded another chance to reconnect with folks or make new connections.

The National Show was a deeply impressive display of top-quality animals. This event and Rockton Fair proved to me how skillful Guernsey owners are at communicating with the consuming public about dairying, Guernseys and Guernsey products! There was so much good done at these events. I also believe there is value in being the only breed with an open show at both events.

It was thrilling to see how many Guernsey 4-H members there were across Canada this year. These members and their calves doing a powerful job spreading the Guernsey story!!! Hats off!

We enjoyed creating material for the newsletters and magazine!

The World Conference in Pennsylvania was an amazing experience! Interaction with Guernsey leaders and the great speakers at the event sure fires up your enthusiasm for the breed.

We did assist with a few registration matters across the year. We also fielded a few calls from folks looking for Guernseys.

We are so excited about the investment in topflight Guernseys by the Kaiser family in Quebec. One of the best parts of their venture into a Guernsey component in their dairy enterprise has been the fact that fellow residents of Quebec also worked with them to import good cattle from the US.

Activity in BC and NS in particular gives us hope for growing Guernsey populations there too!

We take any opportunity to share the Guernsey story with the dairy public.

The rise of smaller scale processing vis a vis the Ebys in Ontario and the Kaisers in Quebec is proof of a growing movement across the whole country. This expanding movement holds much potential for the Guernsey breed.

We are so thankful for the support of the Board, the super efficient, highly supportive and ever welcoming and pleasant Jessie Weir and various individual members! In a breed where the term Golden is used often and appropriately the breed sure struck Gold when Jessie's services as Administrator were contracted!

Seems like all prospects for the breed are golden so let's avoid any tarnishing and let's shine brightly in 2020 and beyond. Thanks to everyone!
