# President's Ramble

**It's been a year of contrasts — great weather for some, and more challenging conditions for others. I hope everyone has secured enough feed for the winter ahead.**

We were fortunate to enjoy beautiful fall weather for the National Show. It was wonderful to see new exhibitors participating — and even more exciting to see some of them win their classes. It's always a pleasure to visit with these newcomers and encourage them to stay involved.

Congratulations to all our participants, and a special shout-out to Mt. Elgin Dairy on their impressive achievement — Maplehurst Pilot Treat, now a 4-time National Show Champion! Treat also placed second in her class at the World Dairy Expo — an outstanding accomplishment.

Your board continues to refine and update the Guernsey awards program, aiming to take breed recognition and improvement to the next level of relevance and impact. As Russell would say, "Onward and upward!"

It's also encouraging to see the continued strong interest in the Guernsey breed. Sales remain solid — a reminder that we truly do need more good ones! If you're using genomic testing, please help spread the word so we can all share in the benefits and progress together.

In closing, I want to extend my sincere thanks to our dedicated staff for their professionalism and hard work throughout the year.

Here's to a successful 2026 — we are fortunate to live in one of the best countries in the world.

Cheers,

*- Paul MacLeod*

invite you to save the date for our:

**ANNUAL GENERAL MEETING**

**Thursday March 26, 2026**

Planning is under way for the AGM.

More information to come in the New Year

# Field Representative's Reflections

## PROGRESS BEING MADE! SUCCESS GROWS!!

Autumn 2025 is whipping at a stunning and stimulating pace and we have some great moments to celebrate!

You'll read about results of our National Show in Ancaster elsewhere in this edition! Numbers bumped up a tick and we welcomed a couple of first-time exhibitors who both had a successful day!

This show happens because of the sacrifice of time and energy that each exhibitor makes! What a thrill to see Maplehurst Pilot Treat capture her fourth consecutive National Grand Championship for Mount Elgin Dairy Farm Ltd.! Congrats to her breeders, the Forster Family at Maplehurst too!

The audience watching the show was good and Jeff Stephens applied serious consideration to his placings. We did have livestreaming thanks to Cowsmopolitan so that a wider audience was part of the process. Our admin team and their fellow employees from Holstein Canada did a terrific job of organization and filling so many roles on show day! Cooperation between breeds

bears so much fruit! Can you imagine that on August 17, 2025 the All Breeds Classification program celebrated its 20th Anniversary?! 20th! The combined efforts of Breed Associations have led to so much progress!

In early September I had the privilege of traveling to Australia on business with another dairy breed. While there I had the opportunity of seeing a number of members of the well-known Brookleigh herd at the Adelaide Royal Show. I also briefly met Josh Smith from Tasmania who was a Guernsey judge at this large-scale event. An additional gift was visiting the First Love Guernsey herd of Cassandra Custance and family. The farm is located in the scenic Gippsland region of Victoria, East of Melbourne. Cassandra and team milked a significant number of Guernsey's in a herd also populated with Holsteins and a handful of Jerseys. First Love is one of the stops on the tour program associated with the World Conference program next February/March. Those who are on the tour segment in Victoria will be treated to an amazing visit at First Love! Cassandra is full of passion for her herd and dairying and knows her cows inside out! She is thoroughly pumped about meeting the tour attendees and talking Guernsey's and showing them her wonderful cows and heifers!

## World Guernsey Cattle Federation 18<sup>th</sup> World Guernsey Conference Australia 2026

### Key Dates:

PRE-CONFERENCE TOUR: Starts February 26, 2026, in Melbourne, Victoria

WGCF CONFERENCE: March 9-12, Devonport, Tasmania

POST-CONFERENCE TOUR - March 12-23, covering NSW & QLD

The 2026 WGCF conference & tour program for Australia is now accepting bookings!  
Info available at - <https://www.worldguernseys.com/>

*We are ramping up our social media presence again after a hectic six weeks in September and first half of October.  
We continue to receive expressions of interest in the breed and address them in the most appropriate ways.*

# Take Advantage of Genotyping Support

We encourage all members to take full advantage of the financial assistance available for genotyping your animals. The Association has recently retrieved 117 stored Microsatellite test samples and had them re-tested using DNA technology. These additional results will increase the number of animals contributing to genomic evaluations and is an important step that strengthens the genetic base and improves the accuracy of evaluations across the breed. Our breed made an impressive start with this initiative, and participation has grown significantly—with over 500 animals already tested. Now is the perfect time to catch up on genotyping any younger animals that have not yet been tested and to take advantage of the financial support offered by the Canadian Guernsey Association.

## Financial Assistance Available:

### For herds participating in either Milk Recording (MR) or Classification:

- \$20 credit per cow
- \$15 credit per heifer

### For herds participating in both MR and Classification:

- \$33 credit per cow
- \$15 credit per heifer

***Let's continue building a stronger, more data-driven future for our breed—one genotype at a time.***

On the International level the World Guernsey Cattle Federation has been supporting efforts to move along and expand work on evaluations at a global level. Progress is being made. Progress is often incremental building on previous successes and learning as we grow. Let us be encouraged by any progress we experience and be agents of even more forward motion! It is a great time to be working with Guernseys!

***Let us know how we can help you to make progress with Guernseys too!***

*- Russell Gammon*

# BEHIND THE SCENES AT THE 2025 National Guernsey Show

# Registrar's Message

Happy Winter to all!

As we bundle up and try to stay warm through these colder months, I thought it would be a great time to share a quick update.

As of November 1, we have completed 144 classifications and processed 289 registrations. Stats are slightly lower compared to this time last year however we are confident we will see these numbers rise!

We were thrilled with the excellent turnout at this year's National Show, which surpassed last year's entries! It was wonderful to see so many familiar faces and dedicated supporters of the breed — thank you for making it such a success.

We're always on the lookout for seasonal cover photos! This winter, grab your camera (and your Guernsey) and get creative with some festive Christmas decorations. Submit your photos to [guernseyinfo@holstein.ca](mailto:guernseyinfo@holstein.ca) for a chance to be featured on our cover.

If you have any questions or need assistance, don't hesitate to contact me by email at: [ipassaretti@holstein.ca](mailto:ipassaretti@holstein.ca)

Warm regards,

- Isabelle Passaretti

# 4-H Awards

The Canadian Guernsey Association is pleased to support 4-H and we thank them for completing their 4-H project using a registered Guernsey.

If you or someone you know is participating in 4-H with Guernsey calves, please let us know by the end of November of the current year by submitting the application form on the website [www.guernseycanada.ca](http://www.guernseycanada.ca) / Application. A special award will be presented from applications received.

# Lost Savanna Farm

VANCOUVER ISLAND, BRITISH COLUMBIA

We are a first-generation small family farm. Kris and Brittany along with our 5 young children (Layla 9, Lily 7, Eva 5, Luka 3 and baby Jeremiah) are involved and contribute to different aspects of the farm business.

We are located in Black Creek which is in the Comox Valley on beautiful Vancouver Island in British Columbia. We're in a temperate rainforest with mild wet winters and warm dry summers. We purchased raw land in 2014 and have spent a significant amount of time improving the original field and clearing for new pastures.

Before we were married, we both competed in competitive sports and we sought nutrient-dense food for performance. Inspired by Dr. Weston A. Price's research, we recognized that pasture-based livestock systems delivered the exceptional nutrition and flavor we were looking for. However, finding this food locally proved difficult, so we decided to start our own farm to produce the food ourselves. We also wanted to start something that our children could end up continuing. Now, more than 10 years later, we have found immense joy in working with our hands each day, laboring from dawn to dusk to bring our dreams to life, and instilling in our children the value and rewards of dedication and hard work.

Small scale direct-to-consumer dairy farming was the original vision for the farm but the challenges of regulation became

apparent to us early. For the last 8 years our farm has sold chicken, pork and beef through a meat box program while we navigated planning, building and starting our creamery. The meat box program is still running today but at a smaller scale than it was a few years ago to keep the focus on dairy. We have tried almost everything on our farm from sheep, rabbits, beef cows, pastured broiler, egg production, dairy cows and pigs. We find that the dairy cows and the pigs complement each other well, as the pigs can consume any creamery waste which keeps the grain cost for the pigs down. This was a much more common style of farm 50-100 years ago.

The desire for delicious and nutritious food led us into soil science and how rich, healthy soil creates healthy plants, which creates healthy animals, and results in healthy people. Our goal is to use organic and regenerative methods to build soil which in turn nourishes us and our customers. The soil food web under our cows' feet is fascinating and something humans have barely scratched the surface of understanding. We want to work with the land rather than against it and leave it in a better state than when we started for future generations.

We originally became aware of Guernsey's with our research into dairy breeds and specifically A2A2 milk. With other forms of milk all being A2A2, including human breast milk,

this “genetic mutation” that occurred in most cow breeds was something we wanted to avoid. This left us with only a few breeds to choose from which had a high percentage of A2A2. After visiting a farm in Ontario with Guernsey’s on pasture and trying the milk, we were set on Guernsey’s. It was the best milk we’d ever tasted. The gentle disposition of Guernsey’s and their beauty were definitely a bonus as well.

There were no Guernsey dairies on Vancouver Island at the time, and only a few farms in BC with Guernsey’s at all so our search began. Brittany is from Ontario so on another trip out there, we found a Guernsey farm retiring (Warrindale) and were able to bring our first Guernsey’s out to BC in 2015. Other Guernsey stock came from Rozelyn and most recently from Promise Valley, Hidden Lane, and Mar-Ley. We are very thankful for farms that helped us increase our stock and of course the help of the Guernsey Association for helping us source more Guernsey’s, originally Rob Forster and currently Russell Gammon.

Around 5 years ago we hit a crossroads in our farm where we had to make a choice to either pursue meat processing which would allow us to produce enough to meet customer demand and make a living, or pursue dairy processing as we would be too small to put our milk on a truck. Our desire to have a dairy persisted, and seeing an increased demand in the marketplace for local grass-fed dairy which was not being filled, we thought this was the best route for our family.

We are butter lovers and after making Guernsey butter for ourselves we knew others would be interested. Lots of the

grass-fed butter in stores comes from the other side of the world like New Zealand and France but it doesn’t have to. We can produce quality grass-fed butter in Canada, especially right here on Vancouver Island with our temperate climate. We currently market our butter directly to the consumer but are exploring other options such as small specialty stores.

Guernsey’s are good grazers, produce delicious A2A2 milk, have high butterfat content, and the color of the butter really comes through when they are grazing due to high beta-carotene content. We call it “grass-fed you can see”. The butter has been very well received with great reviews. We sell it in log form. One customer said they had been previously using a butter mule to bring in butter from Ireland and France through the U.S. and after trying Lost Savanna butter said: “This is fresh, high level AND way better!”.

What is next? We have some rough ideas for agritourism and a farm store but we’re focusing on some other fermented dairy products at the moment. Our children are interested in making ice cream so that could be an option down the road. It’s a blessing to have as a family vision where we can all work together.

Although we started our farming journey with self-study in books and courses, we found nothing compared to physical experience and gleaning wisdom from others. Being a 1st generation farm with a steep learning curve, we’ve been grateful for the help from friends and family, current farmers and retired farmers along the way.

## 2026 SCHEDULE

May	Newsletter (submissions due by April 1)
August	Newsletter (submissions due by July 15)
December	Newsletter (submissions due by November 15)

We are always looking for advertisement submissions for our Guernsey News! **New discounted rates for advertisement frequency in multiple newsletters.**

If you could please provide any advertisements in the below format: Wording for art work specs i.e. design specs – CMYK at 300 ppi in PDF format. We encourage you to submit Camera ready / Completed ads to take advantage of an additional 25% discount.

If you need help putting an advertisement together kindly reach out to Emilie Wallace, and we can look into this on a case by case basis for costs to do ad layout.

SIZE	FREQUENCY 1 Member/Non-Member Rate	FREQUENCY 2 Member/Non-Member Rate (Discount of 15% for 2 ads)	FREQUENCY 3 Member/Non-Member Rate (Discount of 25% for 2 ads)
<b>FULL PAGE</b> 8.5" x 11" with 0.25" bleed	<b>\$240.00 / \$420.00</b> PER ISSUE	<b>\$200.00 / \$360.00</b> PER ISSUE	<b>\$180.00 / \$315.00</b> PER ISSUE
<b>1/2 PAGE</b> 8.5" x 5.5" with 0.25" bleed	<b>\$150.00 / \$240.00</b> PER ISSUE	<b>\$130.00 / \$200.00</b> PER ISSUE	<b>\$110.00 / \$180.00</b> PER ISSUE
<b>1/3 PAGE</b> 8.5" x 3.67" with 0.25" bleed	<b>\$120.00 / \$180.00</b> PER ISSUE	<b>\$105.00 / \$150.00</b> PER ISSUE	<b>\$90.00 / \$135.00</b> PER ISSUE
<b>1/4 PAGE</b> 5.5" x 4.25" with 0.25" bleed	<b>\$100.00 / \$150.00</b> PER ISSUE	<b>\$85.00 / \$130.00</b> PER ISSUE	<b>\$75.00 / \$110.00</b> PER ISSUE
