December 2020

## President's Rattle

It is hard to believe another year has almost gone. This year 2020 will go down in history as a year we will never forget with Covid 19, wearing masks and trying to stay at home when we can. On the bright side of this year the demand for the Golden Guernsey cow has never been better. I myself have increased my Guernsey herd by three. I was very pleased when I went to the barn the other morning and seen a Guernsey heifer calf.

I would like to welcome all of the new breeders to our association. Our annual meeting for the Ontario and Canadian associations will be done virtual this coming year on March 19, 2021. I would like to thank our board of

directors, our fieldman Russell and Jessie our administrator for all the work you do.

Season's greetings to you and your family, wishing you peace, health, happiness, and prosperity in the coming New Year.

Until next time, milk and love our Golden Girls, we will see you on the Golden Trail along the way, six feet apart.....

**Morris Bartlett**  
President

## Report from the “Fergus Office” of CGA

2020 has been a very different year for the entire world—everyone knows that. In the midst of it, agriculture and food production and availability have moved along and have become a higher priority to society. How great is it that the Guernsey breed is enjoying growth in Canada at a time when the rest of the world is questioning what the future holds?

The first focal point of attention has been on the province of Quebec. The Kaiser family have continued investing in live animals and embryos to grow their own operation. What is equally inspiring is that they have mentored, assisted, and nurtured others to invest in Guernsey genetics, from the USA. When we step back and take a long view it is astounding to see a breed come alive in a province where activity had quieted to a very low level. The Guernsey breed is now being challenged to perform for a whole new generation of owners of the breed. This opportunity is bracing and could lead to larger volumes of sustained growth for the breed in the province with the largest number of dairy farms.

In late September I had the gift of an all too brief visit with Chantelle Leslie and Erik Leach at their modern dairy farm near Cobden in Eastern Ontario. They have carefully invested in over 20 head this year to further modify the colour of their 80 head herd. The new Guernsey arrivals share a bedded pack barn with representatives on three other breeds. The number of cattle that this energetic young couple have purchased will provide them with an excellent platform for deciding what role the Guernsey will play in their dairying future. Thanks to the Guernsey owners in Central and Western Ontario who supplied the Guernsey additions to a dynamic operation in the eastern reaches of the province!

In other news we have heard of an investment in some Guernsey embryos by a progressive dairyman in Alberta via a US Guernsey Marketing Service sale. This is huge news for the breed as the Guernsey scene on the prairies has been quite for a good long while! We have informed Morgan Sangster, our Western team member of this activity. Within the week of this writing we have received word of interest in some Guernsey embryos in the Maritime provinces too! We took immediate action to direct the caller to possible sources. All small and large steps are to be celebrated!

Christian Kaiser and I have been involved in industry meetings as representatives of CGA. The goal of the effort is to create a new strategic vision for the genetic improvement sector of the Canadian dairy industry. Step one has been a SWOT analysis of the state of this segment of the industry. This first step involved representatives of all seven main dairy breeds in Canada. Other partners in the effort hail from Milk Recording and AI. Additional work by all partners on the SWOT analysis is coming up soon. The game plan for this work calls for rapid and wise work on establishment of a new vision for the industry over the winter. The opportunity to be involved is superb for CGA!

We were excited to see the first bull in Semex’s revived interest in the breed, Springhill Java-ETV released at the beginning of October. For the moment he is available in conventional only. Semex has been informed of interest in sexed semen from this young polled bull by Herald-P and from the renowned Ex-95 point Jazzy cow. Semex is also working on accessing a Toby Keith son from the well-known Pilot Lava cow in Wisconsin!

Thanks to all who took part in our online fundraising auction!

A couple of projects that we have lagged on are the Breeders Cup contest of 2020, now a national virtual event and some work launching a strategic plan for CGA. Rest assured they have been far from forgotten and will be addressed in the closing months of this highly unusual year!

It is understandable that many of us focus on all the great things that happened in our past due to cancellation of so many events in 2020. This reflection can lead to gratitude and thankfulness for terrific opportunities and meeting and getting to know inspirational and helpful people. Equally important is looking ahead with hope and confidence that we can create new ways of living and doing business and improving and promoting the impressive Guernsey breed!

Thanks for your involvement and patience and support and for sharing Guernsey enthusiasm and good news!

**Russell Gammon**  
*National Guernsey Fieldman*

# 2020 Canadian National Guernsey Breeders Cup Is A Huge *SUCCESS!!*

For many years there has been a Guernsey Breeders Cup competition utilizing an on farm judging concept. A mobile judge would visit all farms with entries accompanied by the Guernsey fieldman. 2020 has been " more than a year and a half" with the global pandemic caused by Covid-19. The impact of the virus mean that some re-jigging of the usual program was needed, IF the Breeders Cup contest was to happen at all.

The Guernsey Board decided, like many associations to move to a virtual competition. This move made it possible for the nomination of animals from anywhere in Canada!

Response was great! 42 entries were received for the five classes.

These entries came from four Ontario herds, two herds in New Brunswick and two herds in Nova Scotia. Owners submitted photos of their animals.

The first stage of judging was conducted by a panel of trio distinguished cattle breeders and judges from around the globe. Enthusiastic agreement to serve flowed from Tyson Shea of Victoria state in Australia, Claire Swale from the United Kingdom and Seth Johnson from Vermont, USA. The composite placings of these three judges accounted for 50% of the overall score. From their selections a field of finalists was determined-five in each heifer class and three in each milking age class.

Following completion of judging by the panel the contest was opened up to the general public via the Canadian Guernsey Association Facebook page. The reactions of the public to the finalists was used to compile the other 50% of placings of each animal.

We want to say a huge THANK YOU to our three talented and keen global judges and to everyone who reacted to any of the Facebook postings with support for specific animals. In most cases there were at least 25 to 30 reactions to each class with one class drawing over 80 reactions across the class.

The contest offered the chance to tell the world about the quality of Canadian Guernseys.

And now, the moment you've been waiting for, here are the details of ranking of the finalists in each class:

## **HEIFERS UNDER ONE YEAR OF AGE AT TIME OF NOMINATION:**

There was a two-way tie for first in this class which had a substantial entry of 11 heifers!

### **FIRST PLACE (TIE)**

### **MAPLEHURST LADYSMAN FAMOUS**

Famous is a Jun 2019 daughter of Flambeau Manor Ladys Man. Her dam is Maplehurst YB Fame Ex-94-5E who is by Edgewater Meadows Yogibear.

She was bred by Ken Forster of Lynden, Ontario. She is owned by The Fullerview Farm, Jennika Fuller, Hortonville, NS and Musqie Valley Farm, Middle Musquodoboit, NS.

### **FIRST PLACE (TIE)**

### **FULLER VIEW BEAU GRETA**

Greta is a November 2019 daughter of Coulee Crest Novak Lambeau and Greystone Ladys Man Edith a daughter of Flambeau Manor Ladys Man.

She is bred and owned by The Fullerview Farm , Nova Scotia.

### THIRD PLACE

WINTERTHYME LM PEPPERMINT

Peppermint is a December 2019 daughter of Flambeau Manor Ladys Man from Winterthyme Ernie Cayenne VG87 sired by Paokie Lil Ernie.

She is bred and owned by Lisa Freeze of Newtown, New Brunswick

### FOURTH PLACE

DON HAVEN LEGEND VEGAS

Vegas is a June 2019 daughter of Coulee Crest Grumpy Legend from Don Haven Latmier Vespa, VG-87 who is sired by Coulee Crest fame Latimer.

This heifer is bred and owned by Scott Gordon, Rockwood, Ontario.

### FIFTH PLACE

DON HAVEN LADY VAVA

Vava is a May 2019 daughter of Flambeau manor Ladys Man from Don Haven Latmier Vavoom Vg85, a daughter of Coulee Crest Fame Latimer.

She is bred and owned by Scott Gordon, Rockwood, Ontario.

### HEIFERS ONE YEAR OLD TO FRESHENING WHEN NOMINATED:

This class had the largest entry of all with an outstanding thirteen head nominated.

### FIRST PLACE

DON HAVEN LATMIER VI now VG85 and projected over 8300 kgs milk and 400 kgs fat, 5.0% at two years.

Vi is sired by Coulee Crest Fame Latimer and from Don Haven Titan Vivian VG87 who is sired by Knapps Adacka titan.

She was bred by John W Gordon and owned by Scott Gordon, Rockwood, Ontario.

### SECOND PLACE

FULLER VIEW PILOT GELATO

This heifer was born in March 2019 and is sired by Lindrian Grumpy Pilot and from Guernsey View Beccas Denise who is sired by Jens Gold B Spruce Winslow.

She is bred and owned by the Fuller View Farm, Hortonville, NS.

### THIRD PLACE

GREYSTONE LADY'S MAN GRETCHEN

This March 2019 heifer is sired by Flambeau Manor Ladys Man and is from Guernsey View Urban's Ambition VG-88 who is sired by Lang Haven Ninja.

Gretchen is bred by Greystone Dairy, Douglas, New Brunswick and owned by the Fuller View Farm, Nova Scotia.

\*See photo on next page

GREYSTONE LADY'S MAN GRETCHEN

6600 kgs milk, 380 kgs fat at 5.8% fat at 2-0

Flash is a daughter of Marodore T Les lightning and out of Guernsey View Zoey's Cricket GP a daughter of Sniders Option Aaron.

Flash was bred by Greystone Dairy in NB and is owned by The Fuller View Far, Jennika Fuller and Musqie Valley farm, NS.

**SECOND PLACE**

MAPLEHURST ERNIE BLAZEN VG-86 projected to right at 7300 kgs milk, 308 kgs fat at 4.2% at two years.

Blazen is a Paokie Lil Ernie daughter from Maplehurst Phoenix Blaze Ex90-3E who is sired by Indian Acres Phoenix.

This cow was bred and is owned by Ken D. Forster, Ontario.

**THIRD PLACE**

MAPLEHURST NAVARO WILMA VG-85 projected to over 700 kgs milk and 285 kgs fat at 3.7% at 1-11

Wilma is sired by Marodore Gary Pistoll and out of Maplehurst Legend Winter Ex93, a Coulee Crest Grumpy

**FOURTH PLACE**

GREYSTONE PHONZE GLENYS

This January 2019 heifer is by Dairyman Mint Phonze and is from Guernsey View Exquisite's Avis VG85 who is a daughter of Edgewater Meadows Yogibear.

Glenys was bred Greystone Farm, NB and owned by The Fuller View Farm, NS.

**FIFTH PLACE**

GREYSTONE NOVAK FELICITY

An August 2018 heifer sired by Lang Haven Grumpy Novak and out of Guernsey View Rona's Cora who is sired by Ripley Farms Aaron Cordell.

Felicity was bred by Greystone dairy, NB and owned by The Fuller View Farm, Jennika Fuller and Musqie Valley Farm, NS.

**FIRST LACTATION:**

This class had six animals nominated.

**FIRST PLACE**

Legend daughter.

She was bred by and is owned by Ken D. Forster of Ontario.

## SECOND LACTATION

There were eight entries in this class.

### FIRST PLACE (TIE)

MARODORE HP NOVAK PORTIA-ETV GP-83 Has a 3-3 lactation of over 11,500 kgs milk and 470 kgs fat at 4.1%

Portia is a daughter of Lang Haven Grumpy Novak and from Marodore Yogis Promise who is sired by Edgewater Meadows Yogibear.

She was bred by Seth Franklin Kohler on Ohio, USA and is owned by The Fuller View Farm, Jennika Fuller and Musqie Valley Farm in NS.

### FIRST PLACE (TIE)

WINTERTHYME ERNIE CAYENNE VG-87 completing her second lactation freshening at 2-10 with 7300 kgs milk, 320 kgs fat at 4.4% fat.

Cayenne is sired by Paokie Lil Ernie and is from Winterthyme Navajo Sage Ex90, a daughter of Lang Haven Alstar Sage.

This cow was bred and is owned by Lisa Freeze of Newtown, New Brunswick.

### THIRD PLACE

MAPLEHURST NAVARRO LOTTERY VG-85 projected over 6700 kgs milk and 315 kgs fat at 4.7%.

Lottery is sired by Lang Haven Alstar Navarro and is put of Maplehurst Aarons Lola VG 87.

Lottery is bred and owned by Rob Forster, Lynden, Ontario.

### THIRD AND LATER LACTATION:

#### FIRST PLACE

MAPLEHURST LEGEND'S LEGACY EX-90 with a third lactation at 4-0 over 9000 kgs milk and 400 kgs fat at 4.5%.

Legacy is sired by Coulee Crest Grumpy Legend and is from Sniders Aaron Option daughter Maplehurst Aarons Laci, GP.

She was bred and is owned by Ken D. Forster of Ontario.

### SECOND PLACE

MAPLEHURST GEO LADDIE EX-91 with over 9600 kgs milk and 430 kgs fat at 4.5% fat.

Laddie is sired by Golden J Les George and her dam is Maplehurst Rozelyn Ladida VG-87 by Rozelyn Challenger Jet.

Laddie is bred and owned by Ken D. Forster.

### THIRD PLACE

COMFORT FARMS SHARON 2 VG-88 projected to over 7750 kgs milk and 342 kgs fat at 4.4% on her sixth lactation.

Sharon 2 is a daughter of Golden J Ronald Grumpy and from Comfort Farms Sharri GP sired by Adams Creek Regal Morey.

Thank you to everyone who played any part in the process of delivering the contest, especially the keen exhibitors who went to a lot of work to make their nominations!!!

# New to the herd!

These cattle from Central and Western Ontario had just arrived at the farm of Chantelle Leslie and Erik Leach at Cobden Ontario when these photos were taken. There are now over 20 head of Guernseys in this Eastern Ontario dairy herd where 75 to 80 head are milked.

Guernseys co-habiting with Holsteins and Jerseys at Erik Leach and Chantelle Leslie's farm in Eastern Ontario!

# ABIQUA ACRES: – MANN’S GUERNSEY DAIRY

*Thank you to Julie Ashton, Cowsmo Magazine, for permission to reprint this wonderful article.*

There’s plenty to love about dairying in the western foothills of the Cascade Mountains: the ability to pasture from March to November, the local consumer base, the natural beauty. But there’s one thing that is much less desirable – the annual wildfire season. As we all know from watching the news over the past weeks, the Western United States has experienced a record wildfire season. Over five million acres have burned so far in California, Washington, and Oregon, and many of those fires are still burning.

Abiqua Acres, located in Silverton, Oregon on the edge of the Willamette Valley, survived a close-up experience with this fierce fire season. The operation, consisting of nearly 100 acres, is home to a 100% registered Guernsey herd owned by Alan & Barbara Mann and Ben & Darleen Sichley. Registered Guernseys have been grazing the farm’s pastures since 1952, when Alan’s parents, Paul & Delores Mann, purchased their first. Descendants of that original cow – 18 generations later – still make up part of the 95-cow herd today.

Abiqua Acres Presige Jesusita EX-92 exemplified Abiqua Acres’ breeding goals, producing over 180,000 and living to be 17-years-old.

Always a family-run operation, Alan & Barbara purchased the farm in 1985, and their daughter Darleen and her husband Ben joined as partners in 2008. The two couples along with Ben and Darleen’s sons, Mason (9), Nolan (6), Clinton (2) make up the labor force on the farm, with an additional Sichley on the way this fall! They utilize their acreage mainly for rotational grazing for the herd, and purchase corn silage locally and alfalfa hay from eastern Oregon.

A number of years ago, the family realized their old, original parlor needed replacement, and so they had to make a decision. Building a new, bigger parlor meant having to hire employees, which was something they were reluctant to do having always been a family-run, family-labor farm. So they studied the possibility of moving to a robotic milking situation. “It took a long time to research. We looked at a lot of facilities in the US and Canada, but that was a big part of our success when we built the new barn and transitioned the herd,” notes Darleen. The new milking facility was completed in 2017 and houses the herd and two DeLaval VMS units in a free flow barn.

Darleen elaborates on the change and transition in the operation, “Our current RHA is 16,330M 763F and 570P. We’ve seen a dip the RHA and it reflects moving into our new facility. Not that the transition hasn’t gone well – we are happy with our daily averages 2.7 milking and 52lbs. Our new facility with capacity for 120 cows allows us to hold onto all of our young cows, including those that we probably would have culled in the past for production. We are basically only culling right now for breeding or major production issues. As a closed herd looking to grow naturally, or if milk prices will ever improve, to allow us to purchase in some embryos. It also reflects the learning curve with robotics and how nutritional changes play a bigger part as we transition again from cannery waste corn silage to field corn. But we are very happy with our decision to go robotic!”

The family has always emphasized breeding a commercially productive registered herd with moderate-sized cows that

breed back and last. Abiqua Acres Presige Jesusita EX-92 had lifetime totals of 186,363M 8,263F and 6,604P over 10 lactations. She exemplified the goals of their breeding program. She stayed in the herd until she was 17, and was a real herd favorite. Her son, Abiqua Acres Levi's Jaeger, is in AI at Select Sires and will see his first daughters calve in this fall.

Abiqua Acres Goliath Velma EX-90 was another favorite who stayed in the herd until she was 16-years-old. She had multiple sons in AI: Banger Verdict, Alstar VIP and stood second on the national Guernsey living lifetime list for several years, as well as being the top NM\$ cow, with a lifetime totals of 234,933M

The Beachie Creek fire moved within 4 miles of the farm, making the air quality extremely poor. The smoke was thick and heavy for both the cows and people, but luckily the herd seemed to be little affected at the time.

12,064F and 7,868P.

One more cows family that has been influential is the 'S' family. One of Alan's first purchases in 1967 from Frances Hertel was a calf named Vanher Banker Snooks. There have been 171 direct female descendants with no ETs. The 'S' family has accounted for over 20 cows that have surpassed 100,000 lbs of milk, totaling 6,408,681 lbs of milk over the lifetime of this family. Notable individuals include siblings from Abiqua Acres Lords Sprinkles VG-86: a son at Genex, Abiqua Acres Grumpy Sergeant, and his sister Abiqua Acres Faros Speranza VG-89, who produced over 130,000M lifetime. Her son Abiqua Acres Geo Sputnik was also placed in AI.

They've currently scaled back their efforts in the show ring with Ben & Darleen having young kids at home, but always enjoyed exhibiting at the Oregon State Fair in nearby Salem, and at the Western National Guernsey Show in Puyallup, WA. Abiqua Acres Aaron's Meara EX-93 put together an impressive show ring record and was a three-time Grand Champion at the Oregon State Fair. The family has always dedicated time to breed organizations. Alan Mann just finished serving eight years on the American Guernsey Association Board of Directors this past summer.

Darleen has a real social media presence and a large public outreach effort for the farm. "I love interacting with the public especially through farm tours. I never seem to turn down a

group, but especially enjoy the Adopt a Farmer program which focuses on middle school age kids. This past school year and this year will be different with social distancing needs. But I've been having fun jumping into virtual tours. In addition, being active and present in social media is so very important," she explains. Known on Instagram and Facebook as @guernseydairymama, she also contributes regularly to Hoard's Dairyman.

But it was through her social media channels that most people saw the shocking images of orange skies and air thick with smoke taken from the dairy in September. The fire began as a lightning strike and as it grew in size, it was named the Beachie Creek fire. "When it began, the Beachie Creek fire was 60 miles away from our farm," says Darleen. "But on Sept. 7, a hard wind blew from the east, which never happens here. The Beachie Creek fire joined up with two other fires and moved 50 miles westward in one day."

The dairy was suddenly placed under level 3 evacuation orders, which means immediate evacuation. "We were allowed to stay at the farm to care for the cattle. The new facility is all steel and concrete, and had a cleared area around it, so we took our chances. The youngstock were in older wooden buildings, so that was a bit more risk, but we had a plan to get them and the nursery calves in trailers to evacuate," Darleen recounts. "My husband and my father are both volunteer firefighters, so they kept a close eye on the situation. The fire was finally stopped when it was just 4 miles from our farm."

Once the fire was no longer the immediate threat, the smoke became the larger obstacle.

"The air quality was just terrible – the worst in the country – but the cows hardly missed a beat. We were without electricity for about a week. On the second day without electricity, one of our backup generators failed. We lost a few hours' worth of milking, but other than that the cows have been doing fine. Nothing much has changed for the cows other than we haven't been able to turn them out onto the pasture due to fire safety concerns," notes Darleen.

Abiqua Acres purchases nearly all of the feed inputs for its herd. On most days, the milking cows are let out onto a pasture located near the dairy barn to graze and exercise.

"We had been feeding cannery waste silage to the cows, but

we recently switched back to corn silage," Sichley said. "There is some concern regarding how this year's corn silage will taste and how much ash it might contain. We buy our alfalfa from a grower located on the eastern side of the state. His area hasn't been affected by the smoke, so there shouldn't be any problems with the alfalfa."

The Beachie Creek fire has burned more than 192,000 acres so far, and is still not fully contained. Darleen says a number of things combined for a worst-case scenario to occur. "We had such a hot, dry summer. We don't get the frequency of summer rains that we used to. I think climate change has had some effect, and there have been some outdated forest management practices that contributed to it all," comments Darleen.

A two-inch rainfall on September 18th finally helped ease the immediate crisis in Silverton, and firefighters had a chance to gain some control over the fire. It will be long

road to recovery for the area and the rest of Oregon, but Darleen is thankful for how her local area stuck together. "We are feeling very lucky that we didn't suffer any property damage. Some families have literally lost everything," she said. "We may have had some difficulties, but the power of the community of helpers is greater than the fear and is the brightest light of hope."

The family is ready to regain some amount of normalcy and get back to focusing on their herd. Darleen asserts, "We really do enjoy the cow side of this crazy life! Going through the last few tough years of low prices and now the wildfire, the love of the Guernsey cow is what has kept us going."

To view some dramatic photos and video footage of the farm with the fire threatening nearby, visit their Instagram page or Facebook page.

**Please submit possible syndicate program pedigrees to Russell Gammon.**

## Registrar's Message

As I sit here in my home office writing this little blurb, I look out the window and enjoy the sun streaming in! Here in Brantford we have had some beautiful weather in November. I hope you were able to complete your harvest and crops are safely stored away.

Looking back on the year, there have been many challenges with adjustments in our daily routines, because of COVID-19, as well as a dry summer and wet fall in many areas. But we made it through the spring, summer and fall of 2020. In my reflection I feel we have been blessed abundantly in spite of COVID-19. The cows continue to produce that rich creamy milk, and with the importation of several animals from the US, there are more Guernsey animals in Canada this year than there was last year at this time! Registrations continue to come in, and on occasion, I enjoy hearing from you as well! We have many reasons to be thankful!

On that note, if you have registrations or transfers to do, we've got a bit of time before the end of the year. Let's try to get as much of it done as we can before Christmas! If you need help or have questions, just give me a shout- I'm only a quick phone call away!

I am thankful to be able to continue to work with all of you and would like to wish you a Merry Christmas and a Happy New Year!

Janine Eygenraam  
Registrar

## Coloured Breed Highlights - December 2020 -

### List of Top LPI Cows Gets a New Look in the Guernsey Breed

The list Top 5 LPI cows experiences significant change this December, starting with an extra push by Lindrian Pamper Bear ET 200 to take over the #1 LPI position (tied #8 Conformation), which forces Eby Manor D L Indy down to #2 LPI (#2 Fat). Thanks to significant LPI increases realized by two cows, the rest of the Top 5 list also takes on a new look. Guernsey View Jaguar Erin catapults from #22 to #3 LPI position, ahead of her dam, Guernsey View Urma's Expense, who is now at #4 LPI (tied #3 Fat). Another Jaguar daughter, namely Eby Manor Jaguar Faith, also makes significant LPI gains to climb from #11 to #5 LPI spot. The highest newly indexed cow this round is Eby Manor Ernie Raelynn at #36 LPI, who is a daughter of Eby Manor Dawson Rosalyn at #8 LPI (tied #10 Protein). Raelynn's sire, Paokie Lil Ernie, receives his first official progeny proof this December and lands at #19 LPI.

As more news on the sire side, Jens Gold C Blue Spruce manages to climb from #7 LPI to grab #3 position this round (tied #8 Protein), landing immediately behind the breed leading sire son duo of Pine Ridge Double L at #1 LPI and his son, Dairyman Double Dawson, at #2 LPI, both sharing #2 position for Fat. The Top 5 LPI list is rounded out by two sires that stay firm in their ranking as Idle Gold E Challenge remains at #4 LPI and Trotacre Enhancer Lewis still follows in #5 LPI position (#3 Milk, tied #8 Fat, tied #4 Protein).

# Adminstrator's Message

of its members. Therefore, this newsletter will be somewhat smaller as unfortunately without the National show results and pictures, Rockton show placings and World Dairy Expo results the pages are fewer. We can only hope next year will allow for these great events to continue.

We also wish to thank Nellie Endeman for her years of service to the breed and wish her & Chuck years of happiness as she plans to retire from EastGen at the end of the year. This past week has been a busy week with new proof information released and printing of reports for the newsletter. Congratulations to the herds who have new excellent cows and a number of cows receiving their multiple excellent designation. This is such a huge accomplishment and definitely worth taking the time to acknowledge. The Guernsey cows are also producing well, and their records can be reviewed here too. Congratulations to Ferme Imperiale who breaks through past Lindrian Farms and hits the top spot for the top 5 Guernsey herds by LPI for Canada.

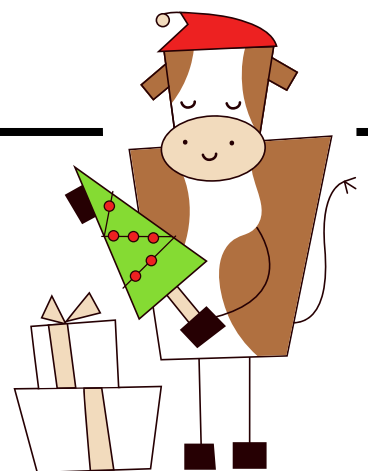

Through difficult times, it is important to find new ways of adapting and turning a negative situation into a positive as quickly as possible. And that is exactly what your board of directors have done. They have continued to make decisions which keep the memberships safety at top of mind however allow for new ways of promoting the breed and allowing for new ideas to flourish. It has been a year of adapting to change and accepting the new normal. The Guernsey AGM this past spring continued on the planned date as a conference call and the next year's AGM will be held virtually on Friday, March 19 at 10:30 a.m. with more details to follow. The AGM fun auction changed to an online auction with some fun selling Guernsey items through Facebook and raising a few extra dollars for the association. The Breeder's Cup contest this past year was held online as well and was another great way to continue to promote the Guernsey breed. A huge thank you to Russell for making this contest come alive. The full Breeder's Cup report can be found within this newsletter. The changes continued with the director meetings this year moving to a virtual forum as well. We do however continue to search for the best platform for meetings considering poor internet reception in a number of areas. The board decided to not proceed with the cattle shows, in the best interest

As this time of year, I would like to say thank you to Janine (our Registrar) for all her work throughout the year. To Russell for all his efforts promoting the breed and who just makes my job more enjoyable. To Holly McFarlane for her wonderful Guernsey pictures and help with the newsletter. She continues to amaze me with her photography and talents. Thank you to the board for their support & guidance and to you the members for continuing to choose Guernsey.

Merry Christmas to everyone and I hope you enjoy whatever that day may look like for you this year.

Stay healthy and stay safe,

Jessie Weir  
Administrator

## CANADIAN GUERNSEY ASSOCIATION & GUERNSEY CATTLE BREEDERS' OF ONTARIO

Invite you to attend the  
VIRTUAL ANNUAL MEETING  
to be held on Friday, March 19, 2021 at 10:30 a.m.

Further information will follow.  
Amendments are due to the office by January 19, 2021

# 2021 Newsletter & Journal Schedule

*Photo Contest! Keep snapping!*

Please continue to forward your candid Guernsey pictures to the office.

**The winner of the picture contest will have their winning picture on the cover of the next Journal.**

**May – Journal (copy due April 1<sup>st</sup>)**

**August – Newsletter (copy due July 15<sup>th</sup>)**

**December – Newsletter (copy due November 15<sup>th</sup>)**
